# Why Partner with Elegancia MEP?

## ● COMPLEX PROJECT EXPERTISE

Specialists in delivering complex MEP systems for iconic residential, commercial, hospitality, and infrastructure developments where precision, coordination, and reliability are critical.

## ● HOSPITALITY & MEGA-PROJECT FOCUS

Proven experience in luxury hotels, island resorts, giga developments, and branded residences, meeting international operator standards and fast-track delivery demands.

## ● INTEGRATED EPC DELIVERY

End-to-end Engineering, Procurement, Construction, Testing & Commissioning under one integrated delivery model—reducing risk and improving project certainty.

## ● ADVANCED CONSTRUCTION METHODS

Adoption of MEP prefabrication, modular systems, BIM (LOD 400/500), and phased energization, improving quality, safety, and schedule performance.

## ● FINANCIAL STRENGTH & GOVERNANCE

Backed by Estithmar Holding, providing strong governance, financial stability, and the capacity to deliver large-scale, long-duration projects.

## ● STRONG HSE & QUALITY CULTURE

Robust HSE management systems and QA/QC procedures, ensuring safe execution, regulatory compliance, and reliable long-term system performance.

## ● REGIONAL PRESENCE, LOCAL EXPERTISE

Operational presence across the Middle East and international markets, combining regional scale with deep local market knowledge and supply-chain strength.

## ● CLIENT-FOCUSED PARTNERSHIP

We operate as a long-term partner, working collaboratively with clients, consultants, and stakeholders to deliver value beyond construction completion.

## ● SUSTAINABLE

Commitment to energy efficiency, sustainability, digital construction, and innovation, supporting clients' ESG and operational performance goals.

## ● Client Value Delivered

MEP works, full quality control  
Reduced interface risk through integrated EPC & in-house carantebility. Shorter procurement cycles via internal manufacturing and modular systems Higher quality control with factory-controlled fabrication and testing Faster energization & phased handover enabling early revenue generation

# Our Inhouse Capabilities

## ● DUCT MANUFACTURING FACILITY

Fully equipped **in-house duct fabrication factory** producing GI, pre-insulated, and specialty HVAC ductwork. This ensures quality control, faster turnaround, cost efficiency, and schedule certainty, especially for fast-track and large-scale projects

## ● ELEGANCIA MEP MODULAR SYSTEMS

Through Elegancia MEP Modular Systems, our in-house modular construction division, **we design, fabricate, assemble, and deliver pre-engineered MEP modules** in controlled environments—enhancing quality, safety, productivity, and schedule certainty across complex projects.

## ● AL BIDDA SWITCHGEAR

Through our in-house panel building division, Al Bidda Switchgear, we design, manufacture, test, and deliver MV, LV panels, MCCs, distribution boards, and custom-built electrical panels. This capability ensures full quality control, faster lead times, compliance with international standards, and seamless integration with site execution.

## ● ELV SYSTEMS - CESCO

Through our in-house ELV specialist company, CESCO, we design, supply, install, test, and commission complete Extra-Low Voltage (ELV) systems, ensuring seamless integration with MEP works, full quality control, and single-point accountability.

## ● ELEGANCIA WATER AND POOL SOLUTIONS

Through our in-house swimming pool specialist division, we design, supply, install, test, and commission complete swimming pool and water feature systems for luxury hotels, resorts, residential developments, and mixed-use projects—ensuring seamless coordination with MEP works and single-point accountability

## ● OFFSHORE TECHNICAL OFFICE - QATARA (EGYPT)

Through our in-house offshore technical office, QATARA - Egypt, we provide centralized engineering, BIM, and technical support to all projects. This model enhances design coordination, speed of delivery, cost efficiency, and technical consistency, while ensuring full alignment with project requirements and international standards.
